

We Don't Just Bill; We Code, Correct, and Get You Paid

It's time to finally turn your medical bills into predictable revenue. Our certified billers help you do that by bringing **20+** years of expertise in coding, compliance, and claims, ensuring every detail, from correct ICD/CPT/HCPCS codes and modifiers to maintaining HIPAA standards. Everything is handled before the payer ever sees it; that's how we maintain a **99%** first-pass approval rate.

- ✓ Our medical billing support helps you cut costs and get paid faster without extra overhead.
- ✓ Our USA Expert Medical Billers ensure ASC-focused compliance and coding for faster, accurate reimbursements for Ambulatory Surgical Centers.
- ✓ Rapid billing support for urgent Care & walk-in clinics that keeps pace with your patient flow.
- ✓ Our Medical billing services USA, specialty-specific coding that captures every dollar you deserve.
- ✓ As one of the leading medical billing and coding companies, we streamlined billing that saves time, cuts costs, and accelerates payments.
- ✓ Simplify billing workflows for group practices for smooth and steady reimbursement.

From Documentation to Dollars; We've Got Every Step Covered

Our medical billing process starts with accurate documentation, passes through modifier alignment, and ends with payer-ready compliance, so you get fully reimbursed.

01 Documentation Review

We validate every medical record, note, and attachment. Our Medical Billing and Coding Services USA include it all, ready to submit.

02 Coding

As one of the leading medical billing companies in USA, our certified billers assign accurate CPT, ICD-10, and HCPCS codes.

03 Compliance Check

Each claim passes a compliance audit for HIPAA compliance to ensure the privacy of the patient data and medical records.

04 Claim Submission

After submission, we track every claim through payment. This includes regular follow-up and monitoring to ensure that

preparing to submit that
your claims don't get
stuck.

Your Billing Shouldn't Be a Mystery

We keep providers updated at every stage from claims submitted to payments posted, with transparent reports, real-time tracking, and complete visibility into your revenue cycle. With advanced billing systems and strict data security protocols, Doctor Management Services offers more than just billing. We are your dedicated partner for financial growth, ensuring every claim moves you closer to success.

FULL TRANSPARENCY

REAL-TIME BILLING INSIGHTS

BILLING AUDITS

We believe in complete transparency. That's why we not only manage the complexities of billing but also provide valuable revenue cycle insights that help you make informed business decisions.

We offer several types of full billing audits. However, our team mainly specializes in reviewing your aging AR, claim denials, and billing mistakes.

We provide regular updates, easy-to-read reports, and transparent communication that give you full control of your revenue.

Helping Providers in the USA Turn Billing Complexity into Seamless Revenue:

[ANALYTICS](#)[PRECISION](#)[TRANSPARENCY](#)[ACCURACY](#)

Analytics-Powered Revenue Cycle

- We provide an informative insight into your claim data using advanced data analysis tools to identify trends and patterns that might go unnoticed otherwise.
- It allows you to track every step of the claims process, anticipating potential roadblocks and enhancing revenue for your practice.
- If a claim gets denied, we don't just accept it; we fight for what you deserve. We handle the entire appeals process, keeping you fully informed every step of the way.

We Follow State-Specific Rules and Payer Requirements

Our billing process aligns with CMS and AMA coding standards while adapting to the USA's unique payer and regulatory requirements.

CMS & AMA Standardization

Built on CMS and AMA coding frameworks. As the best medical billing company, our system is trusted, certified, and compliant.

Trusted. Certified. Compliant.

With certified billers who ensure HIPAA compliance. Every claim is reviewed against the latest federal guidelines to maintain accuracy and audit readiness.

California-Specific Compliance

Clean, compliant submissions that meet payer expectations the first time. We stay aligned with USA Workers' Compensation and commercial payer rules to keep your claims moving without delays.

Let's Turn Your Billing Chaos into Consistent Results

We help you reduce the denial rate under 3% and achieve up to a 97% First-Time Pass Rate with

- Charge Entry and Claim Creation
- Claim Attachments
- Claim Submission & Clearinghouse
- Tracking

Business Office Services

(Account Receivable Management)

Rejection & Denial Management → Payment Posting & Patient Billing → Appeal Processing & Account Resolution

- Medical Coding
- Charge Entry and Claim Creation
- Claim Attachments
- Claim Submission & Clearinghouse
- Tracking

Our medical billing procedure workflow:

Every stage of your billing process, from benefits verification to denial management, is managed by certified experts to ensure compliance, transparency, and full reimbursement. The Doctor Management Services redefines your medical billing experience through improving profitability, converting more A/R to cash, and working more efficiently.

Verification of Benefits (VOB)

We know accuracy matters; that's why we start with accuracy at the very first step. By verifying each patient's insurance coverage, our team first checks each patient's eligibility, deductibles, and authorization requirements before the appointments by calling or checking on the insurer's website. After verifying benefits in advance, it reduces the chances of errors, avoids delays, and claim rejections.

What Doctors Say About Us

Our Client's Testimonials

We transitioned to DoctorMGT after struggling with delayed payments and coding inconsistencies. The difference has been significant. Their team is organized, responsive, and very detail-focused. They don't just process claims; they actively review patterns and help us avoid repeat errors. It feels like we finally have a billing system that actually supports the practice instead of slowing it down.

Dr. Laura Bennett
Internal Medicine

FAQs:

How does accurate medical coding impact reimbursement?

Accurate CPT, ICD-10, and HCPCS coding directly determines reimbursement success. Even a single incorrect code, modifier, or sequence can trigger automatic denials or underpayments. Our certified coders ensure every diagnosis and procedure code aligns with payer-specific requirements and California OMFS standards, maximizing claim acceptance on the first pass.

What makes your billing process different from typical billing companies?

How do I find the best medical billing services for my practice?

Can you help resolve coding-related claim denials?

What's included in medical billing and coding services?

How do you ensure compliance with CMS and AMA coding standards?

Do you manage documentation and coding audits for providers?

Can you handle multiple specialties under one practice?

What is your process for claim follow-up and denial management?

Can your team identify and fix revenue leakage?
